Description of the event and its Significance/Scope in 100-300 words	**THEME OF THE SEMINAR** Technology touches every aspect of human life. The present era of technological advancement play a vital role in the development of any country. With this aim Govt. of India had initiated numerous programmes to strengthen the basic building of country. To promote and facilitate the services of the e-governances for empowering the citizens of India, various programmes such as Digital India, Skill India, STEP for women, digiDhan, MyGov, NMEICT, PAHAL, PMJDY, Smart Cities have been started by present government. However, actual success of these programmes depends on various factors where, digital literacy plays a vital role. Businesses in all sectors are facing a situation where technology is changing the landscape around them, transitioning from the back room of an organisation into the hands of customers, employees and society. Faster development cycles, disruptive business models and increased competition are highlighting the increasingly essential role of technology and automation in business. The Seminar on "**Information Technology and Digital India: Importance & Prospects**" will focus on the frontier topics of Information Technology and Digital India. This seminar is open for discussion to all area of current trends in Information Technology, Computer Science and Business Technology for nation building.
